What You Get When You Host Here

These plans replace the old \$240/year shared multisite rate. Every site gets its own standalone WordPress install. Managed WordPress at \$360/year is the floor: the server plus routine core, plugin, and theme upkeep. Isolated WordPress at \$49/month puts the site on its own VPS. Isolated Plus starts at \$69/month — that number is a floor, not a ceiling. More traffic, a larger store, or a heavier box moves the price up from there. You talk to Avery, not a ticket queue. Onsite in the Tri-Cities and Western North Carolina; remote nationwide.

Package Pricing

	Managed WordPress	Isolated WordPress	Isolated Plus
Published rate	\$360 / year	\$49 / month	From \$69 / month
If paid monthly	\$40 / month	\$49 / month	From \$69 / month
If paid annually	\$360 / year	\$529 / year	From \$745 / year
What the price is	Fixed for a standard site	Fixed for a standard VPS	A starting floor. It grows with the server.
Infrastructure	Shared box, reserved headroom	Own VPS	Own VPS with more CPU and RAM
Best for	Brochure and small business sites	Clinics, active sites, light stores	Busier sites and small commerce that outgrow a base VPS

Heavier than Isolated Plus. High traffic, a larger commerce site, a directory, or a multi-core box (8-core class and up) is quoted, not sold off the \$69 floor. A current scoped quote for that kind of server is **\$270 / month**. The quote follows traffic, checkout load, plugin stack, and CPU/RAM — not a menu price.

Managed WordPress is \$360 a year. Month-to-month on that plan is \$40. Isolated is \$49 a month or \$529 a year. Isolated Plus starts at \$69 a month or \$745 a year. On Isolated and Isolated Plus, the annual price is 10% off the monthly rate. If an Isolated Plus box has to grow, the monthly rate is reset in writing before the change. Domain registration and mailbox hosting are separate unless you already have them with us. A one-time migration fee may apply.

Features by Package

Feature	Managed WP	Isolated WP	Isolated Plus
Standalone WordPress (not multisite)	Yes	Yes	Yes
Linux stack (Nginx preferred)	Yes	Yes	Yes
SSL (Let's Encrypt)	Yes	Yes	Yes
Core, plugin, and theme updates	Routine cadence	Staged	Staged
Daily off-site backups	Yes	Yes	Yes
Backup retention	30 days	60 days	90 days
Uptime monitoring	Yes	Yes	Yes
Staging	On request	Included	Included
Resources	Shared, reserved headroom	Dedicated VPS	Larger VPS; sized up as needed
Price if the site outgrows the box	Move to Isolated	Move to Isolated Plus	Rate rises with the server
SSH / SFTP	On request	Yes	Yes
PHP and stack upgrades	With notice	With notice	Priority window
Commerce readiness	—	Light stores	Smaller stores; heavy commerce is quoted
Health note	Brief email	Written report	Written report
Support channel	Email	Email and phone	Phone and email, priority
Included change time	—	30 min / month	1 hour / month at the \$69 floor

Service Agreement Levels

Hosting is the box. Basic upkeep is included on every plan: WordPress core, plugins, and themes stay current, backups run, and someone watches uptime. A broken plugin, a new page, or store work beyond the included minutes is hourly or a Care Plan. Isolated Plus SLAs below are the \$69 floor. A heavier quoted server, including the \$270/month scope, gets its own written SLA.

Term	Managed WP	Isolated WP	Isolated Plus (from \$69)
Uptime target	99.5%	99.9%	99.9%
Security update window	48 hours	24 hours	24 hours
Staging before a risky update	When the change is risky	Required	Required
Response, business hours	1 business day	4 hours	2 hours
Response, after hours	Next business day	Best effort	Best effort; 4 hours if the site is down
Backup restore target	Next business day	Same business day	Same business day
Backup retention	30 days	60 days	90 days
Planned maintenance notice	24 hours	48 hours	48 hours
Included change time	None	30 min / month	1 hour / month
Overage	\$75 / hour	\$65 / hour	\$65 / hour
Notice to cancel	30 days	30 days	30 days
How billing works	\$360/yr, or \$40/mo	\$49/mo or \$529/yr	From \$69/mo or \$745/yr
Liability cap	1 month's fee	2 months' fees	2 months' fees

When the Server Has to Grow

Isolated Plus at \$69/month assumes a modest dedicated VPS: a busier brochure site, a clinic, or a small store that no longer belongs on the shared box. It is not priced for a high-traffic directory or a large WooCommerce catalog. Those get a written quote before the server is built.

Situation	Where it lands	How it is priced
Standard brochure, low traffic	Managed WordPress	\$360 / year, fixed
Needs its own VPS, normal load	Isolated WordPress	\$49 / month, fixed
Busier site or small store, more CPU/RAM	Isolated Plus	Starts at \$69 / month
Traffic, plugins, or the store outgrow that VPS	Isolated Plus, resized	New monthly rate in writing before the resize
High traffic, larger commerce, or 8-core class	Custom quote	Example on file: \$270 / month

Hosting Plus Care Plans

Hosting keeps the box running and applies routine updates. A Care Plan adds a tighter update SLA, more change hours, and malware response. Sites hosted here get \$20/month off the published Care Plan price:

Care Plan	Standalone monthly	Hosted here, monthly	Hosted here, annual
Essential	\$149	\$129	\$1,392
Standard	\$249	\$229	\$2,472
Premium	\$399	\$379	\$4,092

Example at the Isolated Plus floor: \$69 hosting + Essential Care at \$129 is \$198/month before any server uplift. A \$270/month custom server is stacked the same way after the quote.

Notes

- **Annual is the better price.** Managed WordPress is \$360 a year, or \$40 a month if you do not prepay. Isolated is \$529 a year. Isolated Plus is \$745 a year at the \$69 floor. Those two annual prices are 10% off.
- **Not the old multisite rate.** \$240 a year was a shared multisite slot. New sites are standalone.
- **\$69 is a floor.** Isolated Plus starts there. More traffic, a larger catalog, or a bigger VPS raises the monthly rate. You see the new number before the server changes.
- **\$270 is a scoped server, not the menu price.** That figure is a current quote for a heavier multi-core box. It is not Isolated Plus.
- **Basic upkeep is not a redesign.** Updates, backups, and uptime are included. New pages and store work are Care Plan hours or hourly.
- **You can keep your current host.** Care Plans work on any host. Hosting here is optional and discounted when you do both.
- **Domain and email** are separate unless already billed through Diversified Tech Solutions.
